

Resell NewTV Player activations from your own panel, with credits

NewTV Player is a media player for your customers' own M3U and Xstream (XC) playlists. Every device starts with a free trial. After that, you activate it from your reseller panel in seconds.

Why resellers choose NewTV Player

One app for every screen

Phones, tablets, TV boxes, Fire TV sticks and smart TVs, with the same look and the same steps.

Fast with big playlists

Made to open playlists of hundreds of thousands of channels and films, even on small TV boxes.

No ads, ever

Your customers never see an advert, and nothing is sold to them inside the app.

Nothing to type on a TV

The customer reads you the App ID and key from the screen. You activate; they add their playlist on our website.

Try before you activate

Every device starts with a free trial, so your customer sees it working first.

36 languages

Live TV with a guide, films, series, favourites, catch-up and a parental lock, in your customer's language.

How to start

1

Create an account

Free, at newtvplayer.com/resellers.

2

Sign in

To your panel, on a computer or your phone.

3

Get credits

In the panel. Prices are shown there.

4

Activate

Type the customer's App ID and key, choose how long. Done.

Install guides for your customers

Android phones, tablets, Android TV

newtvplayer.com/install/android

Fire TV and boxes without Google Play

newtvplayer.com/install/fire-tv

Windows computers

newtvplayer.com/install/windows

Adding a playlist (App ID and key)

newtvplayer.com/device

Fire TV: Downloader code

In the free Downloader app on Fire TV, type this code to install NewTV Player:

5067423

On Android, NewTV Player is on Google Play: search "NewTV Player". Samsung, LG and iPhone are on the way.

NewTV Player has no channels, films or playlists and sells none. What you resell is the player's activation, nothing else.
